

Special Education Parent Advisory Group Virtual Meeting

**Tuesday, October 19
6:00 PM**

A short introductory meeting starting at 6:00 PM to network and develop plans and focus for this year. Followed by a 90 minute presentation starting at 6:30 PM from one of our consultants, Anne Holmes, related to supporting our students with autism.

Parenting a Child with Autism: What You Need to Know

To effectively parent a child with autism, it is necessary to understand the unique characteristics of the disorder. This parent workshop will highlight how these characteristics effect the learning, language, and social engagement of children with autism and what strategies parents can use in the home environment to best support their child.
