**Here are some suggested activities to do with your child this week.**

**Enjoy!**

1. Draw pictures together. Have your child talk about what he/she is drawing and you can talk about what you are drawing.
2. Sorting: Get a collection of coins (or any group of items that can be sorted). Have your child sort the coins. How did they sort them? Color? Size?
3. Go on a color scavenger hunt! Tell your child to find a certain color. For example, "find something blue." Then have your child find something blue in your house.
4. Toy Hide and Seek: Have your child pick a toy and you can hide it. When the toy is found, talk about where it was hidden. Use words such as on, under, over, through, next to, etc.. Take turns hiding the toy.
5. Toss game: Find 5 to 10 items that your child can toss (balls, small stuffed animals, crumpled paper, etc..) and a container to toss them into (trash can, large bowl, basket or anything you have at home). Have your child toss the items one by one into the basket. Then have your child count how many went in the basket. You can also use number cards or write each number on a piece of paper to help your child identify the number.
6. Talk about and practice proper handwashing. See below for a video on a handwashing song we sing in the classroom.
